

OXFORDSHIRE COUNTY COUNCIL

Note for contractors undertaking works on the existing Highway in relation to 278 and S38 Private Street Agreements

The existence of a Highways Agreement as listed above which includes works to be carried out on the existing highway does **not** construe approval for the undertaking of those works.

Where a contractor seeks to implement works pertaining to a Highways agreement, the contractor is required to secure separate licence to undertake those works.

In order to obtain permission to work on the highway please contact Network coordination and Street works Team at LicensingandStreetworksTeam@Oxfordshire.gov.uk or on 08453101111
